

DISCOVER THE **POWER OF AIR**

**Grain Handling Solutions for
Agricultural Applications**

Our DNA

Our success is built on delivering high performing solutions and world-class support. Specialists around the world are prepared to provide support and keep your systems running smoothly.

GRAIN ACADEMY

The Kongskilde Grain Academy, located in Denmark, is dedicated to providing comprehensive product knowledge to Kongskilde's dealers and customers. Our goal is to establish an educational space where experts can exchange knowledge and offer hands-on training sessions.

IN-HOUSE MANUFACTURING

Kongskilde's headquarters in Sorø, Denmark, is also home to our manufacturing facility and warehouse. We produce key machines and components for our systems in-house to ensure seamless integration and optimal performance.

CUSTOMER SUPPORT

We have specialists around the world who are prepared to provide support and keep your systems running smoothly. Combined with over 70 years of invaluable experience within pneumatic systems, our skilled and trained staff are ready to support you.

RESEARCH & DEVELOPMENT

We understand the needs of farmers and the agro-industry, and strive to develop the most efficient systems possible. Our team is constantly developing innovative new solutions to better serve the needs of our customers and improve existing equipment lines.

DIGITAL RESOURCES

Access our entire library of digital resources anywhere, anytime. Browse products and applications, compare models, or download PDF documents, manuals, data sheets, spare parts lists, and more at kongskilde-industries.com.

Grain Handling Solutions

Delivering precisely engineered, expertly manufactured, customer-specific pneumatic conveying and grain handling solutions.

Our world-class grain systems are known for their flexibility, reliability, and quality. And our expertise in project planning and execution of grain handling and storage is second-to-none.

CLEANING & SEPARATION

Improve grain quality by eliminating dust and impurities and separate different crops by weight or size for safer storage and maximum crop value.

- Aspiration cleaning at dryer discharge
- Pre-cleaning of grain by weight and size
- Pre-cleaning of grain by weight
- Crop separation
- Grading of malting barley
- Seed cleaning

CONVEYING PNEUMATICALLY

Efficient air-driven solutions for loading and conveying grain. Move grain through a closed pipeline, minimizing damage and risk of contamination significantly.

- Filling and emptying silos and storage
- Loading and unloading (in-field and off)
- Conveying of screenings (fines)
- Residue clean out of silos/on-floor storage
- Conveying system for grain dryers
- Self-cleaning conveying for seed grain

WEIGHING

Simple and robust grain weighing solutions that provide valuable insight about your crop numbers and simplify feed mixing or distribution systems.

- Batch weighing mechanically
- Weighers for feed mill systems

SERVICES AND SUPPORT

All Kongskilde solutions are backed by comprehensive support to ensure smooth operation and customer satisfaction before and after installation.

- Spare parts
- System installation
- Service and repairs
- System support

“

“We constantly look to optimize the grain cleaning process. When we came across Kongskilde’s combined screen and aspiration unit, the KDC, we realized that it was a perfect fit with our mobile product line due to its compact and sturdy design combined with its large screen surface.”

*Grégoire Dubois-Taine,
Owner Ci2T, France*

High-Quality Products

Kongskilde products are designed from the ground up to deliver high-quality crop cleaning, pneumatic conveying and storage solutions.

Our wide range of products and know-how provide proven time-tested solutions for farmers and others involved with grain handling. Reliable, scalable, and completely customizable, Kongskilde products grow with our customers and their yields.

GRAIN CLEANERS

PNEUMATIC SYSTEMS

WEIGHERS

ASPIRATORS

CONVEYING PIPES

SUCTION BLOWERS

BULK STORAGE

DUST COLLECTORS

ROTARY VALVES

AND MORE

“

“We use grain as feed in our pig production. To ensure the best quality, I decided to invest in a KDC 8000 cleaner. It removes a lot of dirt and thus reduces the risk of toxins. Thereby we can avoid adding toxin binders, which are very expensive. I expect my return on investment quite quickly.”

*Allan Gammelgaard
Pig Farmer, Denmark*

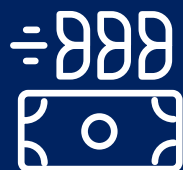

Kongskilde Grain Academy

The Kongskilde Grain Academy in Denmark is dedicated to providing comprehensive product knowledge to our dealers and customers.

Our goal is to establish an educational space where experts can exchange knowledge and gain invaluable hands-on experience with Kongskilde products. Equipped with a variety of tools and equipment such as suction blowers, cleaners, silos, piping, and more, the Academy offers a diverse array of seminars and training sessions.

Customers We Serve

We simplify things for our customers. Whether your business deals in organic or conventional farming, Kongskilde has a solution to improve your production.

Cash Crop Farming

Corn, soybeans, cereals, grain, canola, peas, and special crops

Organic Farming

Organic production of cash crops and livestock

Livestock Farming

Pigs, sheep, cattle, turkeys, chickens, and more

Grain Processing

Milling plants, feed mills, and seed or grain plants
